LEAK**NAVIGATOR**
AN OVARRO SERVICE

A managed, end-to-end leakage reduction service

Ovarro's LeakNavigator is a fixed-network-as-a-service model which provides a complete, end-to-end leakage reduction solution for utilities and their contractors.

Comprising a powerful combination of advanced hardware, software and leakage expertise, LeakNavigator uses automated and enhanced analytics and support services to accurately identify points of interest (POI) on behalf of water companies, enabling them to progress "straight to site, with a high confidence that a leak will be found". LeakNavigator makes your leak detection simple and cost effective.

FEATURES & BENEFITS AT A GLANCE:

- **End-to-end service** We advise on the most suitable equipment and the best locations to install, undertaking ongoing data analysis and alerting customers to POIs with a high accuracy

- **Market leading technology** Best-in-class, fixed network acoustic loggers, from Ovarro's Enigma range, accompanied by specialist leakage software and reporting

- **Accurate pinpointing** A high success rate in pinpointing leaks (>85%) - operatives are directed to the right location at the right time, saving time and costs

- **Customer care meetings** Regular meetings to discuss all aspects of service

- **Trusted experts** We have supported utilities with leakage reduction for more than 40 years

- Several **FollowUp App** videos available for training and support

LEAKNAVIGATOR
AN OVARRO SERVICE

WHY DID WE CREATE LEAKNAVIGATOR?

LeakNavigator aims to simplify and enhance the leak identification process for water companies, using trusted tools that reduce the need for in-house analysis. By using state-of-the-art technology and putting our proven expertise at customers' disposal, we can help reduce leakage quickly and efficiently – sending you straight to dig

Combining easy-to-install acoustic equipment with cutting-edge analytics, we can pinpoint leaks with a proven high degree of accuracy, allowing operatives in the field to focus their time where it really matters.

The development of LeakNavigator follows decades of close collaboration, partnership working and operational trials with utilities.

LEAKNAVIGATOR COMPLETE SERVICE

- **District Metered Area consultancy** - Network assessment, sensor requirements, logger count and deployment location planning

- **Analytics monitoring** - Daily monitoring of loggers, maintenance targeting and POI generation

- **Weekly reporting** - Including POIs identified, leaks confirmed, nightline reduction, conversion rate, logger operability

- **Ovarro service guarantee** - POI to leak conversion rate of over 85% , with service level agreement

- **Remote technical support**

- **Standard operating procedure for network management**

- **Personalised package options available**

- **Training and support available through Leak Detection FollowUp App**
